

## On the Subject of Llama, Llama, Alpaca

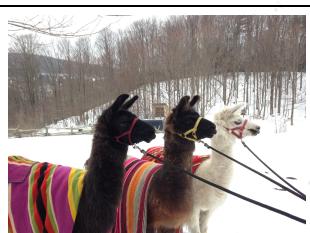

*We never did find out how the orange slayed the rake.*

Upon activating, the module will prompt the user to identify if a displayed animal is a llama, an alpaca, or neither one of those two by pressing buttons with corresponding labels.

Images of possible animals have been provided in Appendix SPLT, FLU55, and N4C.

Appendix SPLT

Llama	Llama
<i>Lama glama</i>	<i>Lama glama</i>
	
Llama	Llama
<i>Lama glama</i>	<i>Lama glama</i>
	
Llama	Llama
<i>Lama glama</i>	<i>Lama glama</i>
	
Llama	Llama
<i>Lama glama</i>	<i>Lama glama</i>
	
Llama	Llama
<i>Lama glama</i>	<i>Lama glama</i>
	

Appendix FLU55

Alpaca <i>Vicugna pacos</i>	Alpaca <i>Vicugna pacos</i>
	
Alpaca <i>Vicugna pacos</i>	Alpaca <i>Vicugna pacos</i>
	
Alpaca <i>Vicugna pacos</i>	Alpaca <i>Vicugna pacos</i>
	
Alpaca <i>Vicugna pacos</i>	Alpaca <i>Vicugna pacos</i>
	
Alpaca <i>Vicugna pacos</i>	Alpaca <i>Vicugna pacos</i>
